## PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

**3–4 *January* 1986**

***St Mary's Meeting***

### DEMONSTRATIONS

*Canfield S.P. & Curwain B.P.* Measurement of gastric bicarbonate secretion in the presence of acid secretion in the anaesthetized rat. 2*P*

*Canfield S.P. & White J.P.N.* Duodenal alkalinization in a rat isolated duodenum preparation. 3*P*

*Benns S.E., Canfield S.P. & Curwain B.P.* Preparation of isolated cells from rat gastric mucosa. 4*P*

*Sirs J.A.* The erythrocyte settling rate (ESR). 5*P*

*Aldridge M.C., Biglin J.E.J., Chadwick S.J.D. & Dudley H.A.F.* A method for the measurement of total hepatic blood flow in the anaesthetized rabbit. 6*P*

*Smith P.M.* Measurement of ventilation using a microcomputer. 7*P*

*Britton H.G.* Student misconceptions of the bicarbonate buffer system. 8*P*

*Beard R.W., Randall N.J., Reginald P.W., Sutherland I.A. & Wertheim D.F.P.* Postural changes in pelvic blood flow in women. 9*P*

*Becket A.J., Eacott D.W., Goldberg P.L., Sever P.S. & Thom S.* A vacuum chamber for the application of lower-body negative pressure to human subjects. 10*P*

*Christopoulos D. & Nicolaides A.N.* Air plethysmography in the assessment of the calf muscle pump in man. 11*P*

*Clough Geraldine & Michel C.C.* Comparisons between the hydraulic conductance of the walls of single frog capillaries and the ultrastructure of the intercellular clefts. 12*P*

*Chan S.T.F., Ford D., McLaughlin S.J. & Neame S.J.* Computerized displacement transducer for quantifying muscle weakness and fatigue in surgical patients. 13*P*

*Culling W., Flores N.A., Sheridan D.J. & Thomas P.* A microcomputer system for measurement of coronary blood flow in man. 14*P*

*Culling W., Flores N.A., Sheridan D.J. & Thomas P.* A microcomputer system for analysis of coronary artery calibre. 15*P*

*Barton Amanda, Cowburn R., Elliot M. & Hardy J.* The use of cell harvesters to study the kinetics of active uptake and receptor binding. 16*P*

*Tan C.B., Alexander D.P. & Britton H.G.* Chemical sympathectomy *in utero* in the sheep. 16*P*

*Alexander D.P., Britton H.G., Redstone D. & Tan C.B.* Assessment of fetal hypoxia using the sheep fetus as a model. 16*P*

*Michel C.C. & Moyses C.* The measurement of tissue swelling rates in human limbs. 16*P*

*Clough Geraldine, Head S.D. & Michel C.C.* Measurements of electrical resistance and hydraulic conductivity in single frog capillaries. 16*P*

*Alexander D. Pauline, Foster C.L. & Tan C.B.* Localization of Tamm-Horsfall glycoprotein in the nephron of the human, rat and hamster kidney as shown by light and electron microscopy. 16*P*

*Rampling M.W. & Whittingstall P.* Rouleaux formation 16*P*

*Bone Q., Pulsford A., Ryan K.P. & Stolinski C.* Gap junctions between locomotor fibres in Sagitta (*Chaetognatha*). 16*P*

### COMMUNICATIONS

*Clough Geraldine, Noor Noriah & Smaje L.H.* Effect of inflammatory mediators on the developing microcirculation of the rabbit ear chamber. 17*P*

*Clough Geraldine, Michel C.C. & Turner M.R.* Effects of chemical fixation on the permeability of frog mesenteric capillaries. 18*P*

*Greenwood J., Lantos P.L., Luthert P.J. & Pratt O.E.* Hyperosmolar opening of the rat blood–brain barrier in the absence of energy-producing metabolism. 19*P*

*McCulloch J. & Reid J.* The effect of capsaicin on blood–brain barrier permeability in the rat. 20*P*

*Karmakar Nivedita & Lever M.J.* The effect of high-molecular-weight polymers on fluid flux through the wall of the rabbit common carotid artery. 21*P*

*Barnes P.J., Conradson T.-B.G., Dixon C.M.S., Fuller R.W. & Maxwell D.L.* Effect of infused adenosine on cardiovascular and airway function in conscious man. 22*P*

*Maxwell D.L.* Effect of adenosine infusion on resting ventilation in man. 23*P*

*Eden G.J. & Hanson M.A.* Effect of hyperoxia from birth on the carotid chemoreceptor and ventilatory responses of rats to acute hypoxia. 24*P*

*Burger R.E., Estavillo J.A., Kumar P. & Nye P.C.G.* The excitation of cat carotid body chemoreceptors by hyperkalaemia depends on $P_{O_2}$ and $P_{CO_2}$. 25*P*

*Maskrey M. & Trenchard D.* Role of the vagus nerves in the respiratory response to intravenous acid infusion in the anaesthetized rabbit. 26*P*

*Hughes A., Redman D., Sever P. & Thom S.* Dopamine-induced vasodilatation in the human forearm is not mediated by $\beta$-adrenoceptors. 27*P*

*Apatu R.S.K. & Barnes R.J.* Hepatic blood flow and oxygen consumption in the sheep during fetal, neonatal and adult life. 28*P*

*Abbott N. Joan & Butt A.M.* A micro-electrode study of $K^+$ transport at the dogfish glial blood–brain barrier. 29*P*

*McGeown J.G., McHale N.G., Pippard Corinna, Roddie I.C. & Thornbury K.D.* The effect of local exposure to sub-atmospheric pressure on lymph production in sheep limbs. 30*P*

*Culling W., Griffiths B.E., Sheridan D.J., Singh H. & Thomas P.* Effects of alpha$_1$ adrenoceptor blockade on the coronary haemodynamic responses to atrial pacing in patients with coronary artery disease. 31*P*

*Brown M.D., Hudlicka O. & Sloan P.M.J.* The effect of long-term bradycardial pacing on left ventricular capillary density and performance in vascularly compromised rabbit hearts. 32*P*

*Ellory J.C., Hall A.C. & Stewart G.W.* Volume-sensitive KCl transport in human red cells. 33*P*

*Blackstock Elaine J., Ellory J.C. & Stewart G.W.* K influxes in red cells from two primate species. 34*P*

*Babij P., Hundal H.S., Rennie M.J. & Watt P.W.* Effects of corticosteroid on glutamine transport in rat skeletal muscle. 35*P*

*Kreye V.A.W. & Weston A.H.* BRL 34915-induced stimulation of $^{86}Rb$ efflux in rabbit aorta and its dependence on calcium. 36*P*

*Boyett M.R. & Hart G.* Dissociation between active force and intracellular sodium activity ($a^i_{Na}$) during the force staircase in isolated sheep Purkinje fibres. 37*P*

*Miledi R., Parker I. & Sumikawa K.* Calcium channels expressed in *Xenopus* oocytes by mRNA from rat brain. 38*P*

*Oswaldo-Cruz E., Picanço-Diniz C.W. & Silveira L.C.L.* Quantitative analysis of the retinal ganglion cell size in Amazon rodents. 39*P*

*Dollery C.M. & v. Grafenstein H.R.K.* The general anaesthetic urethane inhibits evoked catecholamine secretion and calcium uptake in cultured bovine adrenal medullary cells. 40*P*

*Collingridge G.L., Herron C.E. & Lester R.A.J.* Demonstration of a NMDA receptor-mediated component of synaptic transmission during tetanic stimulation in isolated rat hippocampal slices. 41*P*

*Head S.D.* Tritiated-inositol uptake by the isolated phrenic nerve diaphragm of rat: lack of effect of nerve activity. 42*P*

*Creese R., Head S.D. & Jenkinson D.F.* Guinea-pig diaphragm and spontaneous recovery from depolarizing drugs *in vitro*: effect of potassium-free solution. 43*P*

*Hayes R.J. & Idle J.R.* The isolated vas deferens of the whale: responses to electrical stimulation and drugs. 44*P*

*Al-Damluji S., Grossman A. & Besser G.M.* Central alpha-1 adrenoceptors stimulate ACTH secretion in man. 45*P*

*Chan A.B., Price C.A. & Sykes K.J.* Measurement of thromboxane release from rat isolated gastric mucosal cells. 46*P*

*Brown J. & Corr L.* Renal effects of atrial natriuretic peptide (ANP) in man. 47*P*

*Barnes P.J., Conradson T.-B.G., Dixon C.M.S. & Fuller R.W.* A comparison of the cutaneous actions of substance P, neurokinin A and calcitonin gene-related peptide in man. 48*P*

*Ham I.W., Mathias C.J., May C.N. & Stone F.A.* Effect of pentobarbitone, phenoxybenzamine and adrenalectomy on the morphine-induced increase in blood pressure in rabbits. 49*P*

*Atkins A., Clarke D.N., Jones J., Powell J., Sapsford R.N., Sirs J.A., Stanbridge R. de L. & Symons G.V.* Changes of erythrocyte deformability during cardiac by-pass surgery in man. 50*P*

*Edwards R.J. & Newman C.P.* Isokinetic strength and endurance and the operation of foot pedals in man. 51*P*

*Bennett T. & Gardiner S.M.* Neonatal treatment with capsaicin influences hormonal regulation of blood pressure in adult, water-deprived, Long Evans, but not Brattleboro, rats. 52*P*

*Bennett T. & Gardiner S.M.* Changes in plasma volumes, electrolytes and osmolalities in response to water deprivation in female, Long Evans and Brattleboro rats. 52*P*
